Keeping healthy!

Connect with nature ~ go in the garden, open a window, look all around you, what do you notice?

Exercise is good for your body and your mind! Find exercise videos on YouTube, dance at home, walk or run at quiet times.

Keep a good sleep routine. Try to wake and go to bed at the same time each day. Don't sleep too much or too little.

© Kathryn Holden. March 2020.

Do things that make you feel good ~ read a book, watch a film, listen to music, have a bath. what makes you laugh?

Practice random acts of kindness. Call someone, smile, help at home. find a way to support your community.

You may feel sad, angry, scared or worried and that's ok. Try talking to someone or writing your feelings down.

Colour breathing

Sit or lie comfortably and close your eyes. Imagine a colour that feels good to you e.g. the blue of the sky or the warm yellow of the sun. As you breathe in, imagine this colour slowly spreading through your whole body. Notice how this makes you feel. Now, imagine the colour of your worry and as you breathe out, slowly let this colour leave your body.

© Kathryn Holden. March 2020.

Tummy breathing

Sit or lie comfortably and close your eyes. Put one hand on your tummy. As you slowly breathe in through your nose, feel your tummy expand like a balloon. Breathe slowly out through your mouth.

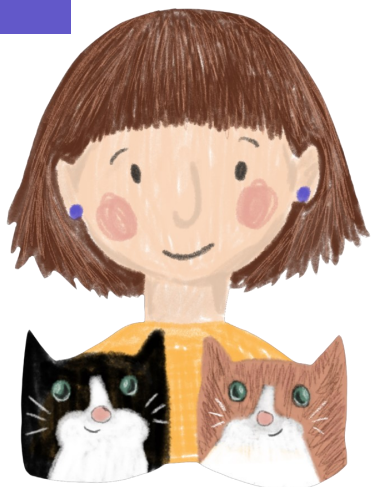
© Kathryn Holden. March 2020.

Self soothe box

Find a box and fill it with things that ground you and make you feel calm. When worry comes along, look in your box for ideas to help

Activity ~ colouring sheets, favourite book to read, music playlist

Memories~ a photo that makes you smile, a positive message from a friend



Relax ~ deep breathing exercises, calming music

Smell / taste~ favourite perfume, dried lavender, a favourite snack

Touch ~ stress ball or fidget spinner to get rid of stress. Hand lotion, bubble bath or a soft toy to soothe

Positive talk cards ~ create cards with your favourite phrase e.g. "everything will be ok," "just breathe," "this will pass"

© Kathryn Holden. March 2020.

Thoughts

At difficult times our brains can feel full of worry thoughts. "I'll never get through this," "what if I get ill?" "what if my family get ill?" These are all normal. Try writing your thoughts to clear your mind.

Superheroes!

Draw yourself as a superhero

What are your special powers? Next time you feel worried or scared, imagine using these superpowers to help!

© Kathryn Holden. March 2020.

WHEN THIS IS OVER

WE WILL . . .

During hard times it can help to plan something to look forward to. What's on your list?

© Kathryn Holden. March 2020.

Message in a bottle

Write a message to all the people you miss seeing. Show it to them when you next see them

© Kathryn Holden. March 2020.

Plant some seeds and watch them grow

Plant some seeds or look at flowers in the garden and watch them grow.

Notice how they change every day. Sometimes the change is so small you can't see it. But it's always there.

Just like seeds growing; this difficult situation will change. Nothing stays the same forever.
